1 Sign Up

To sign up as a DIS-user of our web-app the user clicks on the "Sign Up" button on the root. The user is then redirected to the sign up page, where a new user can be created. To create a user you need to enter the followign in the forms:

- **Username**
- **Email**
- **Password**

The request may fail depending on the two scenarios where:

- Email is not in a valid format (Used regex in the backend to validate the validity of the email address)
- A user with the given username or email already exists in the table.

If the email is valid and the a user with the provided email or username doesn't exist, a new user is created and saved. The user is then redirected back to the login/root page.

SIGN UP

2 Login

(Prerequisites: A user has been created).

For logging in the user needs to enter either their email or password in the form, as well as their password. When filling out the form note that email/username is case insensitive, while the password is case sensitive. Once the user has filled in the form, the user can click on the "Login" button, which takes the user to the recipes page.

3 Recipe Overview Page

On the recipe page the user can view the existing recipes. At first this page will not contain any recipes, since we don't populate the recipes table with data. If any recipes exist, they will be displayed on this page and the user can click on a recipe, which will direct the user to the recipe page.

4 Recipe Page

When viewing a recipe the user can see information about the recipe such as:

- Title
- Cooking Time
- Instructions
- Ingredients

If logged in as the user which created the recipe can the user delete the recipe and change the title of the recipe.

Boller I Karry 

Created by: test Cooking time: 60 minutes

Instructions:

Cook rice x 10

Notes / Garnishes / Etc:

No

Ingredients:

Boller: 10

Karry: 100 ml

Milk: 1 L

5 Create Recipe Page

To create a recipe the user has to click on the "Create new recipe" button, which takes the user to a page where the user can create their own recipe. When creating a recipe the user can fill out the following information:

- Name of recipe
- Cooking time
- Instructions
- Extra notes
- Ingredients and quantity

If the list of ingredients doesn't contain the desired ingredient it is also possible for a user to add a new ingredient. To add a new ingredient the user has to enter the ingredients name and click on the "Add new ingredient" button. Once the form is filled out, the user can create the recipe by clicking on the "Create" button. The newly created recipe will then be displayed on the "Recipe Overview Page".

6 Continue without account

You can also proceed to the recipes without an account, by clicking "CONTINUE WITHOUT ACCOUNT" on the login screen. This will take you to the recipe frontpage where you can browse all the recipes. However you will not be able to create recipes. The corresponding view can be seen underneath.
